Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1, 6, 11, and 16 are pending in the instant application.

Drawings

2. The drawings were received on July 26, 2004. These drawings are accepted by the examiner.

Response to Arguments/Amendments

3. Applicant's arguments, see page 11, filed July 26, 2004, with respect to the rejection(s) of claim(s) 1, 6, and 16 under 35 U.S.C § 103 have been fully considered and are persuasive *in view of the amendments to the claims*. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made.
4. Applicant's arguments, see page 12, filed July 26, 2004, with respect to the rejection(s) of claim(s) 11 under 35 U.S.C § 103 have been fully considered and are persuasive *in view of the amendment to the claim*. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 6, 11, and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1, 6, 11, and 16, the claims are indefinite because one skilled in the art is unable to determine how the claimed synchronization timing is repeated in the invention. In the claims, the synchronization timing is understood to be a timing or position wherein a synchronization is identified, albeit incorrectly. One skilled in the art is unable to definitively determine such a process wherein the synchronization timing is repeated thereby leading to a match between an alternate timing at which the synchronization pattern is detected and a timing of a synchronism pattern of the expectation data. The term repeated is not definite as it is used in the claim, and it does not appropriately embody the invention. Therefore, the claims are found to be indefinite.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
